Definitions of special educational needs (SEND) taken from section 20 of the Children and Families Act 2014.

A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for them. A child of compulsory school age or a young person has a learning difficulty or disability if they:

- a) have a significantly greater difficulty in learning than the majority of others of the same age;
- or
- b) have a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions.

A child under compulsory school age has special educational needs if they fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them.

Children must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught.

More details about the reforms and the SEND Code of Practice can be found on the Department for Education's website:

www.education.gov.uk/schools/studentsupport/sen

One significant change arising from the reforms is that Statements of Special Educational Needs, for those children with the most complex needs, have now been replaced with a new Education, Health and Care (EHC) Plan. These plans are being supported by an Education, Health and Care Plan Pathway. You can find out more here:

<http://www.derbyshiresendlocaloffer.org/>

The SEND Local Offer is a resource which is designed to support children and young people with special educational needs and/or disabilities and their families. It describes the services and provision that are available both to those families in Derbyshire that have an Education, Health and Care Plan and those who do not have a plan, but still experience some form of special educational need. The SEND Local Offer includes information about public services across education, health and social care, as well as those provided by the private, voluntary and community sector.

It is important to consider what is **NOT SEND** but may impact on progress and attainment:

- I. Disability (the Code of Practice outlines the "reasonable adjustment " duty for all settings and schools provided under current Disability Equality legislation – these alone do not constitute SEND);
- II. Attendance and Punctuality;
- III. Health and Welfare;
- IV. EAL;
- V. Being in receipt of Pupil Premium Grant;
- VI. Being a Looked After Child;
- VII. Being a child of Serviceman/woman.

Identifying **behaviour** as a need is no longer an acceptable way of describing SEND. Any concerns relating to a child or young person's behaviour should be described as an underlying response to a

need which you as a provider will be able to recognise and identify clearly as you will know the child/young person well.

Mission statement

Success with Care

- I. At Dronfield Henry Fanshawe School (DHFS) we are proud to provide a safe, stimulating and inclusive learning environment where every member of our community is valued and respected.
- II. Our broad, balanced, creative curriculum and enrichment activities provide opportunities for everyone to achieve and succeed.
- III. We celebrate our achievements, gifts and cultural diversity, irrespective of individual differences within the protected categories of the Equality Act of 2010.
- IV. Together we take pride in making a positive contribution to our school and the wider community.

1. Aims and objectives

Aims

We aim to provide every child with access to a broad and balanced education. This includes the National Curriculum in line with the Special Educational Needs Code of Practice.

Objectives

Staff members seek to:

- I. **Identify the needs of students with SEND as early as possible.** This is most effectively done by gathering information from parents, education, health and care services and prior settings prior to the child's entry into the school.
- II. **Monitor the progress of all students** in order to aid the identification of students with SEND. Continuous monitoring of those students with SEND by their teachers will help to ensure that they are able to reach their full potential.
- III. **Make appropriate provision to overcome all barriers to learning** and ensure students with SEND have full access to the National Curriculum. This will be coordinated by the Director of Learning Support and may involve the Headteacher and other members of staff as appropriate and will be carefully monitored and regularly reviewed in order to ensure that individual targets are being met and all students' needs are catered for.
- IV. **Work with parents** to gain a better understanding of their child, and involve them in all stages of their child's education. This includes supporting them in terms of understanding SEND procedures and practices and providing regular feedback on their child's progress.
- V. **Work with and in support of outside agencies** when the students' needs cannot be met by the school alone. Some of these services include Educational Psychology Service, Speech and Language Therapy, Children and Adult Mental Health Service CAMHS. Hearing impaired service Physical Impaired Service, County Behaviour Support Service, etc
- VI. **Create a school environment where students can contribute to their own learning.** This means encouraging relationships with adults in school where students feel safe to voice their opinions of their own needs, and carefully monitoring the progress of all students at regular intervals. Student participation is encouraged through school by wider opportunities such as school council, residential visits, productions, sports teams and star leaders.

2. Roles and responsibilities

The person responsible for overseeing the provision for children with SEND is Martina Milowiz (Director of Learning Support - Special Educational Needs Co-ordinator) who sits on the Strategic Leadership Team and attends all SLT meetings and briefings.

The role of the Director of Learning Support

The Director of Learning Support, in collaboration with the Headteacher, and Governing Body, plays a key role in helping to determine the strategic development of the SEND policy and provision in the school to raise the achievement of students with SEND. The key responsibilities of the Director of Learning Support may include:

- overseeing the day-to-day operation of the school's SEND policy
- liaising with and advising fellow teachers and teaching assistants
- managing the SEND team
- coordinating provision for students with special educational needs
- overseeing the records on all students with special educational needs
- liaising with parents of students with special educational needs
- contributing to the in-service training of staff
- liaising with external agencies including the LA's support and educational psychology services, Careers service, health service and the local Multi Agency Team and voluntary bodies

The Learning Support teacher, in collaboration with the Director of Learning Support and the Learning support team, provides specialist support for students with additional needs to raise the achievement and close the gap, for students with SEND or those who are Catch up Premium students.

Our SEND Governor attends curriculum meetings and is updated regarding the progress of students of SEND and the changes in the department.

The role of the Teaching Assistant

Teaching Assistants will aid the delivery of quality first teaching by providing support for the students, teachers, curriculum and the school under the guidance of the classroom teacher; they liaise closely with teachers regarding the work set for an individual/class, and assist with setting out and differentiating of learning materials. Teaching Assistants encourage the participation of students in the social and academic processes of the school, and enable students to become more independent learners. Teaching Assistants work closely with the class teacher to contribute to the management of student behaviour, and maintain an appropriate working environment, including implementation of the school's behaviour and learning and teaching policy and any other relevant policies. Teaching Assistants establish and promote productive relationships with students, the inclusion of all students within the classroom and the school, and help to assist in raising the standards of achievement of all students following classroom teachers' instructions and guidance. Teaching Assistants observe and report on student performance, and update relevant records at agreed time intervals.

Designated Officer with specific Safeguarding responsibility is the Headteacher

Member of staff responsible for managing LAC funding - Martina Milowiz

Member of staff responsible for managing the schools responsibility for meeting the medical needs of students – Sally Burns

3. Arrangements for coordinating SEND provision

The Director of Learning Support will hold details of all SEND records for individual students.

All staff can access:

- I. The DHFS SEND Policy;
- II. A copy of the full SEND Profile;
- III. Guidance on identification of SEND in the Code of Practice;
- IV. Information on individual students' special educational needs, including student profiles, targets set and copies of their provision map;

- V. Practical advice, teaching strategies, and information about types of special educational needs and disabilities;
- VI. Information available through Derbyshire's SEND Local Offer.

In this way, every staff member will have complete and up-to-date information about all students with special needs and their requirements which will enable them to provide for the individual needs of all students.

This policy is made accessible to all staff and parents in order to aid the effective coordination of the school's SEND provision.

4. Admission arrangements

Please refer to the information contained in our school prospectus.

The admission arrangements for all students are in accordance with national legislation, including the Equality Act 2010. This includes children with any level of SEND; those with Education, Health and Care Plans and those without.

5. Specialist SEND provision

We are committed to whole school inclusion. In our school we support children with a range of special educational needs. We will seek specialist SEND provision and training from SEND services where necessary.

6. Facilities for students with SEND

The school complies with all relevant accessibility requirements; please see the school accessibility plan for more details.

7. Allocation of resources for students with SEND

All students with SEND will have access to Element 1 and 2 of a school's budget which equates to £6,000, some students with SEND may access additional funding. For those with the most complex needs, additional funding (High level needs HLN) is retained by the Local Authority. The Director of Learning Support will refer individual applications to a multi-agency panel, which is administered by the Local Authority, who will determine whether the level and complexity of need meets the threshold for this funding. It would then be the responsibility of the Director of Learning Support, Strategic Leadership Team and governors to agree how the allocation of resources is used.

8. Identification of students needs

Identification

See definition of Special Educational Needs at start of policy.

A graduated approach:

Quality First Teaching

Any students who are falling significantly outside of the range of expected academic achievement in line with predicted performance indicators and grade boundaries will be monitored.

Once a student has been identified as possibly having SEND they will be closely monitored by staff in order to gauge their level of learning and possible difficulties.

The student's subject teacher, Mentor, House Progress Leader or House Support Manager will take steps to provide differentiated learning opportunities that will aid the student's academic progression and enable the teacher to better understand the provision and teaching style that needs to be applied.

The Director of Learning Support will be consulted as needed for support and advice and may wish to observe the student in class.

Through consultation and observation it can be determined which level of provision the student does require. Parents will be informed fully of every stage of their child's development and the circumstances under which they are being monitored. They are encouraged to share information and knowledge with the school.

The child is recorded by the school as being under monitored due to concern by parent or teacher but this does not automatically place the child on the school's SEND register. Any concerns will be discussed with parents informally or during Parent Consultation Evenings.

Parent Consultation Evenings are used to monitor and assess the progress being made by children.

SEND Support

Where it is determined that a student does have SEND, parents will be formally advised of this and the decision will be added to the SEND register. The aim of formally identifying a student with SEND is to help school ensure that effective provision is put in place and so remove barriers to learning. The support provided consists of a four – part process:

Assess Plan Do Review

This is an ongoing cycle to enable the provision to be refined and revised as the understanding of the needs of the student grows. This cycle enables the identification of those interventions which are the most effective in supporting the student to achieve good progress and outcomes.

Assess

This involves clearly analyzing the student's needs using the Mentor, subject teacher, House Progress Leader and House Support Manager and taking details of previous progress and attainment, comparisons with peers and national data, as well as the views and experience of parents into account. The student's views and where relevant, advice from external support services will also be considered. Any parental concerns will be noted and compared with the school's information and assessment data on how the student is progressing.

This analysis will require regular review to ensure that support and intervention is matched to need, that barriers to learning are clearly identified and being overcome and that the interventions being used are developing and evolving as required. Where external support staff is already involved their work will help inform the assessment of need. Where they are not involved they may be contacted, if this is felt to be appropriate, following discussion and agreement from parents.

Plan

Planning will involve consultation between the teacher, Director of Learning Support and parents to agree the adjustments, interventions and support that are required; the impact on progress, development and or behaviour that is expected and a clear date for review. Parental involvement may be sought, where appropriate, to reinforce or contribute to progress at home.

All those working with the student, including support staff will be informed of their individual needs, the support that is being provided, any particular teaching strategies/approaches that are being employed and the outcomes that are being sought.

Do

The class teacher remains responsible for working with the child on a day-to-day basis. They will retain responsibility even where the interventions may involve group or one-to-one teaching away from the main class teacher. They will work closely with teaching assistants and to plan and assess the impact of support and interventions and links with classroom teaching. Support with further assessment of the student's strengths and weaknesses, problem solving and advising of the implementation of effective support will be provided by the Director of Learning Support.

Review

Reviews of a child's progress will be made regularly. The review process will evaluate the impact and quality of the support and interventions. It will also take account of the views of the student and where necessary their parents. The class teacher, in conjunction with the Director of Learning Support will revise the support and outcomes based on the student's progress and development making any necessary amendments going forward, in consultation with parents and the student. This does include a possibility to be removed from the SEND Support.

Referral for an Education, Health and Care Plan

If a child has lifelong or significant difficulties they may undergo a Statutory Assessment Process which is usually requested by the school but can be requested by a parent. This will occur where the complexity of need or a lack of clarity around the needs of the child are such that a multi-agency approach to assessing that need, to planning provision and identifying resources, is required.

The decision to make a referral for an Education, Health and Care Plan will be taken at a progress review.

The application for an Education, Health and Care Plans will combine information from a variety of sources including:

- I. Parents
- II. Teachers
- III. Director of Learning Support
- IV. Social Care
- V. Health Professionals

Information will be gathered relating to the current provision provided, action points that have been taken, and the preliminary outcomes of targets set. A decision will be made by a group of people from education, health and social care about whether or the child is eligible for an EHC Plan. Parents have the right to appeal against a decision not to initiate a statutory assessment leading to an EHC Plan.

Education, Health and Care Plans [EHC Plan]

Following Statutory Assessment, an EHC Plan will be provided by Derbyshire County Council, if it is decided that the child's needs are not being met by the support that is ordinarily available. The school and the child's parents will be involved developing and producing the plan.

Parents have the right to appeal against the content of the EHC Plan. They may also appeal against the school named in the Plan if it differs from their preferred choice.

Once the EHC Plan has been completed and agreed, it will be kept as part of the student's formal record and reviewed at least annually by staff, parents and the student. The annual review enables provision for the student to be evaluated and, where appropriate, for changes to be put in place, for example, reducing or increasing levels of support.

Students with a statement of Special Educational Needs or an Educational Health and Care Plan, on SEND Support or receiving School interventions are reviewed regularly and it will be decided if the young person will be removed from the Inclusion Register.

Further information about EHC Plans can found via the SEND Local Offer: <http://www.derbyshiresendlocaloffer.org/> or by contacting the Parent Partnership Service on 01629 533660.

How we support students with additional needs:

- Personalization and Quality First Teaching
- Catch up programs for literacy and numeracy interventions
- Personalized speech therapy programs (Programs provided by the students designated Speech Therapist)
- Personalized physiotherapy programs (Programs provided by the students designated Therapist)
- Additional Classroom support via a Teaching Assistant
- Positive Support
- Providing identified students with Irlen Syndrome with coloured exercise books
- Home school diary
- Additional transition sessions
- Equestrian Therapy
- Art Therapy
- Positive Support
- 1:1 literacy / numeracy interventions
- Lunch time and after school clubs (e.g. Allotment Club, Healthy options, PE Club)
- Working closely with outside agencies

9. Access to the curriculum, information and associated services

Students with SEND will be given access to the curriculum through the specialist SEND provision provided by the school as is necessary, as far as possible, taking into account the wishes of their parents and the needs of the individual.

Every effort will be made to educate students with SEND alongside their peers in a mainstream classroom setting. Where this is not possible, the Director of Learning Support will consult with the child's parents for other flexible arrangements to be made.

Regular training and learning opportunities for staff on the subject of SEND and SEND teaching are provided both in school and across the family of schools. Staff members are kept up to date with teaching methods which will aid the progress of all students including those with SEND.

In class provision and support are deployed effectively to ensure the curriculum is differentiated where necessary. We make sure that individual or group tuition is available where it is felt students would benefit from this provision.

We set appropriate individual targets that motivate students to do their best, and celebrating achievements at all levels.

10. Inclusion of students with SEND

The Director of Learning Support and the Headteacher oversee the school's practice around inclusion.

The school curriculum is regularly reviewed to ensure that it promotes the inclusion of all students. This includes learning outside the classroom.

The school will seek advice, as appropriate, around individual students, from external support services through to Solution Circle Meetings.

Advice will be sought from County Behaviour Support Service, Sheffield MAST team, CAMHS, Educational Psychologist Service, Speech Therapy Service, Occupational Therapy Service, Physical Impairment Team, Hearing Impaired Service, Visual Impaired Service, Autism Outreach Team, School Health,

11. Evaluating the success of provision

In order to make consistent continuous progress in relation to SEND provision the school encourages feedback from staff, parents and students throughout the year. This is done in the form of an annual parent and student questionnaire, discussion and through progress meetings with parents.

Student progress will be monitored on a termly basis in line with the SEND Code of Practice.

12. Complaints procedure

If a parent or carer has any concerns or complaints regarding the care or welfare of their child, an appointment can be made by them to speak to the Director of Learning Support who will be able to advise on formal procedures for complaint.

http://www.dronfield.derbyshire.sch.uk/Site_Content/Unsecure/Policies/parents/Complaints%20Policy%20%26%20Procedure.pdf

13. Continued Professional Development (CPD)

We aim to keep all school staff up to date with relevant training and developments in teaching practice in relation to the needs of students with SEND.

We recognize the need to train all our staff on SEND issues and we have funding available to support this professional development. The Director of Learning Support, with the Strategic Leadership Team, ensures that training opportunities are matched to school development priorities.

14. Links to support services

The school continues to build strong working relationships and links with external support services in order to fully support our SEND students and aid school inclusion.

Sharing knowledge and information with our support services is key to the effective and successful SEND provision within our school. Any one of the support services may raise concerns about a student. This will then be brought to the attention of the Director of Learning Support who will then inform the child's parents.

15. Working in partnerships with parents

Dronfield Henry Fanshawe School believes that a close working relationship with parents is vital in order to ensure:

- a) early and accurate identification and assessment of SEND leading to ensure appropriate intervention and provision;
- b) continuing social and academic progress of children with SEND;
- c) personal and academic targets are set and met effectively.

In cases where more frequent regular contact with parents is necessary, this will be arranged based on the individual student's needs. The Director of Learning Support may also signpost parents of students with SEND to the local authority Parent Partnership service where specific advice, guidance and support may be required.

If an assessment or referral indicates that a student has additional learning needs the parents and the student will always be consulted with regards to future provision. Parents are invited to attend meetings with external agencies regarding their child, and are kept up to date and consulted on any points of action drawn up in regards to the provision for their child. The school's SEND Governors may be contacted at any time in relation to SEND matters.

Students' Mental Health and Wellbeing Policy

http://www.dronfield.derbyshire.sch.uk/Site_Content/Unsecure/Policies/parents/Students%20Mental%20Health%20%26%20Wellbeing%20Policy%20%26%20Guidance.pdf

16. Links with other schools

The school works in partnership with the other schools in the area. Termly meetings enable us to build a bank of joint resources and to share advice, training and development activities and expertise.

17. Links with other agencies and voluntary organizations

Dronfield Henry Fanshawe School invites and seeks advice and support from external agencies in the identification and assessment of, and provision for, SEND. The Director of Learning Support is the designated person responsible for liaising with the following:

Derbyshire Education Psychology Service,

CAMHS – Children and Mental Health Service;

<http://www.chesterfieldroyal.nhs.uk/services/clinical-directorates/womens-and-childrens/children/camhs/index?ts=12213>

18. Supporting students at school with medical conditions

The school recognizes that students at school with medical conditions should be properly supported so that they have full access to education, including school trips and physical education. Some children with

medical conditions may be disabled and where this is the case the school will comply with its duties under the Equality Act 2010.

Some may also have special educational needs (SEND) and may have a statement, or Education, Health and Care (EHC) plan which brings together health and social care needs, as well as their special educational provision and the SEND Code of Practice (2014) is followed.

19. Accessibility Statutory Responsibilities

The DDA, as amended by the SEN and Disability Act 2001, placed a duty on all schools and LAs to plan to increase over time the accessibility of schools for disabled students and to implement their plans.

See DHFS Accessibility Plan
